Hi Boyd,

As requested, here are the transfer forms that you would need to sign and have notarized to complete your part of the Notice transfer. See the forwarded email below for specific instructions. Document 1) is the primary form to send in to the Division first to get the ball rolling. Documents 2), 3), and 4) aren't essential immediately, but will be if Todd signs his transfer documents. Signing paperwork to accept the funds in the CD also comes later, if Todd signs his transfer documents.

Having Document 2) (the Reclamation Contract) notarized at the same time as Document 1 (the Permit Transfer form) could save you time.

Don't hesitate to call if you have additional questions or concerns.

Peter

Hi Boyd,

Sorry for the delay. Here are the forms to complete for the transfer:

- 1) Permit Transfer form (MR-TRS_FFW) - Please sign and have page 3 notarized, then send pages 1 and 3 back to me by mail. Todd will be filling out page 2, so don't worry about that page.
- 2) Reclamation Contract (MR-RC-SMO_FFW) - The signature page will look a little similar to the transfer form, but it is different. You will need to sign and have page 5 notarized, and then send the entire contract back to us by mail. The Division fills out page 6. Fill out the Fact Sheet, which is strictly informational for us. This is where you provide us with your social.
- 3) Notice of Intention (NOI) to Commence Small Mining Operations (MR-SMO_FFW) - For pages 1 and 2, just write in your address and phone number where your name is listed. Fill out the rest of the NOI pages completely and sign the last page. This form can be emailed back to us if you want, with your signature on it, but mail is fine too. Indicate in the brief description of proposed mining operations on page 5 that you are reclaiming the existing disturbance and producing rock as part of reclamation, plus anything else we need to know.

If you have any questions about any of this form, please let me know, and I'll tell you what we are looking for. Sometimes it's not always clear.

- 4) Maps - We will need some maps going forward - a Location map (attached) and an Operation map (see the

instructions in the NOI). Let me know if you want assistance with the Operation map.

I assume that you will need to sign something at the bank at some point to get the CD in your name. I will let you know what I hear.

Let me know if you have questions about any of this. Thanks.

Peter

Sorry, I've been soooooo busy, the person in charge of the weather - us a few extra days of mild temps, been working my --- off trying to put the farm to bed. We bought us a new 5th wheel trailer, it's 38' long and 4 slides. I been spending a large amt of time trying to get it personalized. Added a solar system, and inverters to 110 volts, a satilite system, added a trailer hitch to pull the razer with, I also need to get some domestic wheat planted, and I got about three acres ready. Had a lot on my plate.

I've got the map done and a few words in a letter. I hope to get it finished this week. Again I'm sorry, we are past the point of being able to do anything about planting anyway. I'm going to put the rotory mower on and spread the rabbit brush around. I just want to be ready to go next spring. I hope to be retired by then.

Further - the last time we talked Todd had e-mailed you said he wanted to do this, but you had nothing in writing. From now until Dec. is the most busy time of the year for the store. I will be going to Arizona about January 15th and won't be back until the end of march. - Boyd

Hi Boyd,

I hope things are going well. I haven't heard back regarding some additional specific questions that you have about a possible permit transfer, and I wasn't able to reach you by phone. I want to make sure you are not waiting on me at this point to send another letter with more details. When you get a minute, could you give me a call? Thanks.

I got your communication today, for the most part I understand it. I do however have a few questions, the application and bond was just for the 5 acres, so my responsiblity is just that. OK what about the other, 10 + acres that Todd colored out side the lines. Wow what fine \$1,500!!!!. That's like slapping me in the face. I don't know how he'll do that. Interest on the bond - am i collecting the interest after the transfer or am I working for Todd again. I'm taking this to read by my lawyer on monday. My son will be here to let you in on Monday.

> Hi Boyd,

> Attached is a copy of the letter sent to you, in case you never see it in person, since we sent it to the wrong address. The letter discusses the possibility of transferring Todd's Freedom From War mine permit (S/039/0024) to you, and the implications. Once you get a chance to look at and think about it, please give me a call to discuss. Thanks.
